SIDDHI SIKCHI

Mob: +91 9922377981 |Email: kishusikchi28@gmail.com | GitHub | LinkedIn | LeetCode

Computer Engineering student having experience in software development, Python, C++, SQL, and web development. Currently working as a Software Developer Intern, contributing to web features, bug fixing, and product development. Familiar with machine learning, data analysis, and AI concepts through academic projects and certifications. Interested in software development and building practical solutions

EDUCATION

B.Tech - Vishwakarma Institute of Technology, Pune — June-2028
CGPA: 8.85/10

12th - Shree Shivaji Vidyalaya, Washim — March-2024
Percentage: 84.67%

EXPERIENCE

Software Developer Intern — VedNovaAI Technology — July 2026 - Present

- Developed and improved website features based on client requirements.
- Worked on the coupon and discount module for an e-commerce platform.
- Identified and fixed bugs in existing application features.
- Used Jira to document requirements, user flows, bugs, and implementation details.
- Worked with developers and the product team to understand requirements and complete assigned tasks.
- Suggested improvements to improve application functionality and user experience.

TECHNICAL SKILLS

- **Programming:** C++, Python, JavaScript, SQL, HTML, CSS
- **AI & Machine Learning:** Machine Learning, Scikit-learn, Generative AI, Transformers, RAG
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab, Postman, Jira, Microsoft Excel

PROJECTS

E-Commerce & Supply Chain Analytics and Prediction System
GitHub Repository Link
Technologies: Python, SQL, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

- Analyzed 50K+ e-commerce and supply chain records using Python and SQL.
- Performed data preprocessing and exploratory data analysis to identify sales and customer behavior patterns.
- Built Decision Tree and Random Forest models to analyze customer purchasing behavior, delivery risks, and sales trends.
- Used an 80:20 train-test split to evaluate model performance.
- Achieved 98% accuracy with Decision Tree and 96% accuracy with Random Forest based on the project evaluation.

CERTIFICATIONS

- Tata Group GenAI Data Analytics Job Simulation (Forage) | June 2026 | Credential Link
- Commonwealth Bank Software Engineering Job Simulation (Forage) | June 2026 | Credential Link
- AWS Academy Graduate - Data Engineering | May 2026 | Credential Link
- Women Who Masters Hackathon | July 2026 | Credential Link

ACHIEVEMENTS

- Secured 97.47 percentile in the MHT-CET State Entrance Examination (2024).
